(b) what are the findings of Joint Technical Team (JTT); and

(c) what action have so far been taken on the recommendations and findings?

THE MINISTER OF WATER RESOURCES (PROF. SAIF-UD-DIN SOZ): (a) to (c) During the first meeting, the Joint Group of Experts felt that a more detailed technical examination is required and it was recommended to form Joint Technical Team consisting of four members each from India and Bhutan and with provision that any expert or special invitee could be co-opted as and when required. The Joint Technical Team made visits to some of the identified areas and submitted its report on various aspects. The Joint Technical Team studies some sources of sediment load, nature of slides and suggested further studies and preparation of maps to be taken up for deciding remedial measures to be recommended by the JTT. The report findings of the Joint Technical Team are for consideration of the JGE.

River inter linking project

851. SHRI MANOHAR JOSHI: Will the Minister.of WATER RESOURCES be pleased to state:

(a) whether Government have made an assessment about shortage of irrigation and drinking water across various regions/parts of the country;

(b) if so, the details thereof;

(c) the steps taken by Government to tackle this problem; and

(d) what is the current status of the river-inter linking project?

THE MINISTER OF WATER RESOURCES (PROF. SAIF-UD-DIN SOZ): (a) to (d) The national Water Development Agency (NWDA), a Society under the Ministry of Water Resources, as a part of its studies of National Perspective Plan (NPP) for Water Resources Development prepared by Government in 1980 has carried out water balanced studies of river basins/sub-basins of the country keeping in view the scenario of ultimate stage of water resources development in these basin and it has identified 11 river basins/sub-basins as water deficit river bassis. NWDA after the above studies has identified 30 links under NPP (Is in

the Peninsular Component & 14 in the Himalayan Component) for preparation of Feasibility Report with a view to transfer water from water surplus areas to the water deficit regions of optimum utilization of water resources of the country. NWDA has completed Feasibility Report for 14 links under Peninsular Rivers Development Component and 2 links under Himalayan Rivers Development Component. A tripartite agreement was signed among Government of India and concerned States of Madhya Pradesh & Uttar Pradesh on 25.08.2005 in respect of one priority link under Peninsular Component *Viz.* Ken-Betwa link for preparation of Detailed Project Report (DPR).

Proposal for A.P. water sector improvement project
